

SENATOR LAMB: Senator Warner, for what purpose do you rise?

SENATOR WARNER: Let it go.

SENATOR LAMB: The motion is the indefinite postponement of LB 258. Those in support vote aye, those opposed vote no. Twenty-five required on Select File. Have you all voted? Record, Mr. Clerk.

CLERK: 13 ayes, 28 nays.

SENATOR LAMB: The motion fails. Senator Higgins, did you request a record vote?

SENATOR HIGGINS: (Response inaudible.)

SENATOR LAMB: There is some confusion as to whether or not you made a request.

CLERK: I'm sorry, Senator, you had and I'd forgotten. (Read record vote as it appears on page 579 of the Journal.) 13 ayes, 28 nays, Mr. President.

SENATOR LAMB: The motion fails. Do you have anything else on the bill, Mr. Clerk?

CLERK: Yes, sir, I do. Mr. President, Senator Warner would move to amend.

SENATOR LAMB: Senator Warner.

SENATOR WARNER: Mr. President, members of the Legislature, I indicated earlier this is in essence a technical amendment because there was a variety of sections that needed to be adjusted to reflect the policy change. It does nothing more than that. It is about 25, 30 pages long.

SENATOR LAMB: Raise the call.

SENATOR WARNER: But I'd move the adoption of that amendment to the bill to make it technically correct.

CLERK: Mr. President, Senator Warner, I understand you have an amendment to the amendment. Is that right, Senator? (Warner amendment appears on page 580 of the Journal.)
